JOHN DWIGHT & CO'S
SODA SALERATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cooler, a purer delicate appearance and flavor; and also on more wholesome—both being more congenial to the human system than Potash. It is more economical than is usually believed—as much quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, using much less of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is unsurpassed for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.

Directions for use are printed on each package.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James C. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STRAIGHT CUTTER, PLANING, TONGUEING AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the stationary Knife Planing Machines attempted to be palmed on upon several persons in search of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 16th volume of the Repertory of Arts, invented by Samuel Benthan, in the year 1791. A like machine was patented in this country by one Kugler, some six or seven years since, and another one put up by Albert Richard, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the preceding inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before that could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Milwaukee Daily Sentinel.

SATURDAY MORNING, MAY 1, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore
PROPRIETORS.
UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

The Commercial in Full Cry.

Speaking upon our hint to "Tray, Blanche and Sweetheart, and all the *little* dogs;" the *Commercial* of yesterday opens afresh upon the Governor's Veto. Its "bark," however, is as innocent as its bite; "full of sound and fury, signifying nothing." The motive for these assaults is too palpable, and the mis-statements in which they abound, too notorious, to impose upon the People. Witness its repeated declaration, *knowing* it to be false, that of the "respectable" papers in the State, the *Sentinel* and Madison *Express* alone sustain the Veto. Witness its absurd and purely demagogueical charge against the Governor, of starving the laborers and ruining the contractors on the Improvement. Witness its equally idle and groundless accusation against the *Sentinel*, of trying to "kill the Improvement," "stab its friends," and wreak our "malice upon the contractors." What is all this but the splenetic effusions of "passion, disappointment and obstinacy;" the outpourings of personal ill-will and partizan malice?

What possible object could Gov. FARWELL have in "killing" the Improvement? What "grudge" have we against the Contractors to feed fat? How cheaply and easily might the Governor and the *Sentinel* have purchased that sort of popularity which the *Commercial* affects, by "going it blind" for Mr. MARTIN'S bill, and winking at all the fraud, waste and mismanagement of the Improvement Fund! Every hour's reflection, however, satisfies us more and more, that the Governor's Veto was *right*, as every day shows more clearly and unequivocally, that it reflected the sentiments, and meets the approving judgment of the People and Press of Wisconsin. This, it is, that stings the *Commercial* to the quick, and provokes its intemperate, but innocuous assaults. Let it bark on!

Wisconsin in the Whig Convention.

The Buffalo *Commercial*, in endeavoring to correct some statement of the *Express* relative to the vote of Wisconsin in the Whig National Convention, says:

In respect to Wisconsin, we have the positive, unqualified assertion of one of the delegates—a most intelligent, reliable gentleman, that he is in favor of Mr. Fillmore's nomination, and that every one of his four associates agrees with him in sentiment and opinion.

We beg leave to assure the *Commercial*, in the most "positive, unqualified" manner, that its informant is, to say the least, entirely mistaken.—Who the delegate may be, who has so unscrupulously disposed of the five votes from this state, we do not know, although we can guess. But we do know that the statement is entirely untrue. The delegation from this state were uncommitted at first, and their vote was to be, and *is* to be, cast for that one, among the array of leading Whigs, who all things considered, will most surely lead on the hosts of the party to victory. Should anything occur to place Mr. Fillmore in that position, the delegation might cast a unanimous vote for him; but we venture to assure the *Commercial*, that there is no future event more certain, than that Gen. Scott will receive the vote of Wisconsin in Convention.

Southern Michigan Rail Road Company.

We have seen a letter from Mr. G. S. HUBBARD, General Agent of the Southern Michigan R. R. Company at Chicago, giving further details of their arrangements for the current season. They have resolved, as already announced, to place two good Boats on this Lake, and are now negotiating for the purchase of the *Lady Elgin*. They have already secured the *Baltic*, which, with the *Lady Elgin*, or the *Sultana*, if the negotiation for the *Lady Elgin* fail of success, will form a daily line between Milwaukee and Chicago. These boats may be expected here within a week after the Straits are open.

The entire road from Chicago to Toledo will be in running order by the 10th instant. It is all finished and in use now, with the exception of a short 12 *mile* gap, now filled by a Plank Road.—The *through* time, from Chicago to Toledo, will be *eight* hours, and from Chicago to New York, *forty hours*, or less than *two* days! Passengers, by this route leaving here in the evening will be in New York in 48 to 50 hours thereafter.

At Toledo, the Southern Rail Road Cars connect with the new and elegant steamers, *Southern Michigan* and *Northern Indiana*, and the *Empire State*. The line, as thus constituted, cannot fail to draw a very large proportion of the Western business and pleasure travel.

GOV. FARWELL AND HIS ASSAILANTS.—The following article, translated from the *See-Bote* of April 29, is another sample of that just public sentiment which so afflicts the querulous *Commercial*:

"MR. FARWELL, our Governor, has been as roughly as unjustly assaulted and slandered, for vetoing the bill for the Improvement of the Fox and Wisconsin Rivers and the Chancery Mortgage Bill; but no impartial judge will find any wrong in the Governor's doings.

The Veto of the first-named bill was grounded upon the existing laws of the State, and as for the Chancery Bill, had it become a law, it would have ruined the credit and the reputation of Wisconsin and would have damaged the State to an incalculable extent. It is a pity to see these measures of the Governor attacked for mere party purposes and his person misused as a target for vile slanders and wretched jokes. In verity this is rather misusing the People, who elected him trustfully for his high office, than the individual aimed at.

All the acts of the Governor, as far as we know them, including the appointment of Emigrant Agent, deserve the acknowledgements of the People."

☞ The *Free Democrat* of last evening excuses itself for not publishing the proceedings of Thursday's meeting, on the ground that the Clerk of the Council had not furnished it with a copy. It points to the 15th rule to show that it is the Clerk's business to do this. The rule reads thus:

"The proceedings of each meeting shall be published *under the direction* of the Clerk, in one or more of the city papers."

There is nothing in the letter or spirit of this rule to sustain the *Free Democrat's* forced construction. It is not made the duty of the Clerk to report proceedings for the City papers, nor do we believe that the Council will impose this additional labor upon him. The "Official" paper ought to do its own reporting.

☞ The Albany *Register* says it "is authorized to say that the classification of members of the Legislature, published in *Knickerbocker*, was false in every particular." The *Sentinel* gave the same "classification" the benefit of an insertion, and did not have the honesty to publish the correction.—*Commercial.*

The *Commercial*, which has caught up and published all manner of false statements on this subject, but not a single "correction," evinces a charming simplicity in talking about "honesty." Our reason for not copying this so called "correction," was, that the *Knickerbocker* re-affirmed the accuracy of its "classification; that it gave every Member's name with his Presidential preference attached; and that not a single Member has yet disavowed the preference so ascribed to him.

☞ The *Free Democrat* of yesterday, not content with denouncing the Mayor, and decapitating the Clerk, wages war against the Third Ward Aldermen, for the offence of publishing a ward notice in the *Sentinel*. It has quite made up its mind that the City printing, the City treasury, the City Council and the City officers belong "exclusively" to the *Free Democrat*, and that nobody else shall have a bite at its cherry.

☞ The new steamer *Southern Michigan*, is to be placed in the line between Monroe and Buffalo in the 5th of May.

EXECUTIVE FINANCIERING.

Persons having state appropriations and waiting for their pay, are informed that it will not be convenient (1) for the banking house of Marshall, Ilsley & Co., who have taken the state loan, to pay the same under two or three weeks. The pretence for delay is, the absence of the Secretary from the seat of Government, and the consequent impossibility of obtaining his signature to the bonds: although the Deputy, recognized by the constitution and the laws, as Secretary in the absence of the principal, stands ready to do legally all that is required of that officer (2); and thus engagements running through many ramifications of business are caused to be violated—vexation, disappointments and losses upon those the least able to bear them ensue—all because the Governor dislikes Alexander Mitchell (3) and would not entertain a proposition from him to take the loan and pay the debts of the State immediately.

We do not like to be censorious—it is not in our nature to be suspicious—but we cannot help thinking, particularly when our attention is almost constantly called to the subject by duns, and the State is our debtor to the amount of over $4,000. We have before alluded to the Governor's financiering with Mr. Marshall; now if we may be allowed to suppose that the banking arrangement of Farwell and Marshall was for the purpose of operating with the depreciated paper of other States, procured at 5 per cent interest and loaned at 12 per cent interest, (4) at the same time avoiding the statute against illegal banking and the responsibility and restraints of the new banking law, we have a clue to the present operation upon the State loan.

The Governor negotiated the sale of the state bonds with Marshall & Ilsley for ninety-eight cts on the dollar and receives the bills of the "North Western Bank of Virginia" (5) at par—these bills are at a discount of 1½ per cent in the city of New York: (6) here we have upon the $50,000 loan a shave of two per cent upon the bonds—$1000; 1½ per cent upon depreciated paper—$750; and the 8 per cent bonds are worth in the New York market at least 5 per cent premium—$2,500 (7). Here is a nice little operation of $4,250 for brokerage, and the individuals engaged in it are allowed the time to bring the arrangement all round and pocket this profit without advancing (8) a dollar of their own, while the creditors of the state are made to suffer by the delay, a sum perhaps equal or above the profits of these Executive brokers. What further losses are to be suffered by the people of the state in the circulation of depreciated and suspected bank paper remain to be seen (9). Our constitution, if we mistake not, says something about special payments for all state indebtedness, but that we presume only applies to cases in which the Governor is not personally interested.

Verily, we have a "model Governor" and a model administration!—*Madison Democrat.*

We cannot imagine why the Madison *Democrat* should persist in its false statements, and most abusive personal attacks upon Gov. FARWELL; and we know very well, that in the community where both the Governor and the editor are known, the abuse of that paper passes unheeded. So, too, in this city, such insinuations against the Governor will receive no attention. We only copy and notice the above, in order that what we say in reference to it, may meet and refute the calumny in other quarters throughout the State.

We have marked the several allegations above named, and proceed to say in regard to them;

1. No person has been informed, on the authority of MARSHALL & ILSLEY, that it will not be convenient for them to pay the balance of the loan. They are ready, and have been ready to pay it, for some time.

2. The bankers who negotiated the loan, are informed by able counsel here, that the bonds should be signed by the Secretary of State, and not by Deputy. The Secretary is absent at Green Bay, and hence, in part, the delay.

3. All gammon. The law was passed at the end of the session, and the Governor, to meet the pressing want of money, negotiated the loan immediately, on the best terms offered; Mr. MITCHELL being one of the parties interested with MARSHALL & ILSLEY in making the offer.

4. No "depreciated money" has been paid in on the Loan. If that which was paid in *should* have been procured at 5 per cent interest, or 5 per cent discount, even, whose business is it? The idea of its being loaned at 12 per cent to the State, is as false as all the rest. No such rate is paid.

5. The amount paid over to the State, on account of the loan, is $15,000. Of this, $5,000 was in gold, $4,000 in Wisconsin Marine Insurance Co. bills, $3,000 in Vermont bills, and $3,000 only in bills of the N. W. Bank of Virginia, and

6. These last bills are quoted and stand in New York, just as all other good banks from the Southern and Western States are quoted and stand. They are at par here—welcome and receivable every where. We should be glad to have our few debtors pay up in no worse money; and if it would give our Madison cotemporary any better humor, or cause any greater adherence to truth and propriety, we wish him a part load of them.

7. The news of the marketable value of our State bonds is in advance of the mails. We hope it will prove genuine. We await the confirmation of the report.

8. The parties who negotiated the loan, *did* "advance" the $15,000 mentioned, on the personal guarantee of the Governor, that the bonds should be prepared and signed. No bonds were printed, and it is but a day or two since they were printed here, and sent out for the signature of the State authorities. As we stated above, the money for the remainder of the loan lies ready for being delivered, on the delivery of the bonds. They have probably been sent to, and received from Green Bay, with the Secretary's signature before this time.

9. The money has been paid over, and will be paid over, in money that is good here, and good everywhere. It was "instructive to observe," that members of both Houses, "democrats," too, and others having appropriations, in many cases turned from the yellow metal, and aided in circulating the "depreciated and suspected bank paper."

The charges which we have thus briefly noticed, are, in truth, manufactured from whole cloth—the coinage of the *Democrat's* own mind, and "bogus," of course. We have wasted too much time and space upon them.

☞ We understand though the Wisconsin that the Sentinel is down on us for the assertion that "very little is left undone to make Gov. Farwell notorious, except burning him in effigy." We are not prepared to say exactly how the matter stands, as for some reason or other we have not latterly often been favored with a sight of the Sentinel.—*Janesville Standard.*

We copy the above for the purpose of showing the *Commercial* that the *Standard* does not ignore its own articles; and also of assuring our Janesville cotemporary that our paper is regularly mailed to its address. Why it does not reach its destination, we cannot imagine.

HUNG IN EFFIGY.—Gov. Farwell was hung in effigy at Green Bay last week. A severe comment upon his improvement veto.—*Fond du Lac Journal.*

Tastes will differ. The Fond du Lac *Journal* thinks this "burning in effigy" a stigma upon the Governor. Others, and we fancy the majority, will regard it as only discreditable to the perpetrators of the outrage. It must be a weak cause which needs the help of *such* arguments.

WHIG VICTORY.—The city election Quincy, Illinois, took place last Monday. John Wood (Whig) was elected Mayor by a majority of 190 votes over his Democratic competitor. The Whig says:

A very large vote, (about 1,200.) was polled, but perfect order prevailed.

The result thus secured, is a Whig Mayor, a Whig Marshal, and five Whig Aldermen out of the six, in the City Council. Well, that will do!

"NONE SO BLIND" &c.—The *Free Democrat* affects to discover something "equivocal in our denial of its repeated and wanton fabrications about the *Sentinel* and "the Jenny Lind Club." It is sheer affectation. The *Free Democrat* understands us well enough, and is no doubt conscious, if not ashamed of its own dishonorable course in the premises.

POST OFFICE OPERATIONS.—A post office has been established at the Forrest House, Waukesha Co, N. Graves Jr. P. M.

The office at Warwick, Marquette Co., has been discontinued.

The name of Upton, Dodge Co., has been changed to Rubicon, and that of Pin Hook, Grant Co. to Rockwater.

PROFITABLE BUSINESS.—It is said that Dicken's income from the sale of his writings, is not less than $50,000 per annum.

Reported for the Sentinel.

GERMAN MEETING.

A large, tho' not quite enthusiastic meeting was held on Thursday last, at 8 o'clock in the Milstory Hall, by our German citizens. Mr. Amand Goegg, formerly a member of the provisional regency of Baden, who was vested with dictatorial power, and minister of the finances of Baden, during the last revolution, had come here for the purpose of inviting the people to form "revolutionary societies." It is rather well known that the German friends of their fatherlands, liberty, do not quite agree in relation to persons and means. While Professor Kinkel proposed to collect money by loan and gifts for the purpose of raising a fund, which was to be immediately spent in buying arms, fitting out revolutionary armies and preparing, or stirring up a new movement in Germany—some of the most prominent German revolutionists, as Messrs. Fickler, Buge, Fleinzen, Goegg, Logel and others were entirely opposed to this way of spending the sympathy-borne gifts of the German citizens of America. They proposed to forward good pamphlets and newspapers to Germany, the press there being entirely in fetters and unable to enlighten the people; they likewise distrusted the effect of any revolutionary movement in Germany which was to be started by means of the German Emigration.—Thus they did not only disagree with Professor Kinkel, but yet there was something between them looking rather more like a quarrel than like anything else. Mr. Goegg is now making the tour of America, as Messrs. Kinkel and Kossuth, before him, addressing the people and inviting them to form revolutionary societies, to promote the above purposes. Himself, he has proved as a gallant and true-hearted defensor of his people's liberty, and his making a tour through the United States only on his own expenses, and by no means, intending to be puffed out, or to humbug the people by solemnities and torch-light processions, deserves much credit.

The Military Hall was half filled up, and Mr. Goegg addressed the meeting—Dr. Hnebschmann presiding the same as usual. Mr. Goegg, after having positively disavowed any ill feeling against any person, and especially against Kinkel's German National Loan, and after having stated himself free from any personal purposes, stated to the auditors the views of his friends and himself, urging the necessity of providing the people in Germany with publications, which were to support their sinking courage, and to record the mischiefs of the tyrants, which rule now: of forwarding support to the poor fugitives in Switzerland and England, who there find themselves as unable to make their living as to pay their passage to America; and of rallying the German population in America around the banner of "Intervention for Non-Intervention."

Though the orator from the beginning had assured his auditors he would not address their hearts, but their common sense, and though he is by far not the powerful orator like Kossuth, or sweet and flowery one like Kinkel, he was listened to with great attention and after having finished, received with hearty applause. Mr. Schoeffler moved a committee to be appointed for drawing resolutions, and this committee (Messrs. Schoeffler, Wendte, Luther, Best and Schlomilch,) after some time reported resolutions responding to the speaker's proposals. The meeting resolved to form such a revolutionary society, and the committee nominated *forty* trustees, who are to prepare the the whole for further consideration. By the by, the meeting did not look as if this "consideration" would be much spoken of for the coming times.

BANKS VETOED.—By the following despatch it will be seen that *one democrat* is still in existence. Gov. Bigler is well worthy the position he occupies.—*Waukesha Democrat.*

"Democracy," it would seem from this, has "run to seed." There is but "one" of the race left. Gov. BIGLER is "the last rose of summer, left blooming alone;" all his lovely Anti-Bank companions being "done gone." The Waukesha *Democrat* chants a melancholy requiem over their remains.

THE GENERAL BANKING LAW.—The Janesville Democratic *Standard* says of this important law:

Its enactment has been attended with a [illegible] of labor and expense and it *is giving conceded on all hands* that we cannot well get along without banks, especially so long as they are chartered and in operation in other States, unless there is some material defect in it, we want to see it approved and the long and tedious squabble ended:

We anticipate for this law almost as large a majority as that by which the People last Fall gave authority to the Legislature to frame an enactment on the subject.

THE JUNIATA PATTON AFLOAT.—The schooner *Cleopatra*, of this port, which was despatched some three weeks since to the aid of the *Juniata Patton*, ashore on the western coast of Michigan, opposite the Manitous, returned here Thursday night and reports that the *Patton* has been got off and is on her way to this port for repairs. The *Patton* went ashore, in a gale, late last fall. She was loaded with salt, coal, and lumber. The lumber, except about 10,000 feet, was saved; but the coal and salt was thrown overboard to lighten the vessel,

The *Cleopatra* reports the Lake as entirely clear of ice, as far down as the Manitous. The obstructions however are in and about the Straits, as well as al the outlet of Lake Huron. It will need a good deal of warm, or wet weather to open these icy gates.

☞ The Racine *Advocate* says in regard to the Governor's Veto of Mr. Martin's Improvement bill:

Our Governor did veto a bill that was not a proper one—*and he was right, and time will show that he was*—but as the Legislature overrode the veto, not until the State and the improvement shall have sustained a great loss.

Does the *Commercial* rule this witness out as not "respectable?"

SALE OF GOODS BY SAMPLE.—The Legislatures of New York, Pennsylvania and Maryland, have prohibited, under a penalty of $500, the sale of goods by sample in those States. A movement is now making in Massachusetts for the enactment of a similar law.

LAKE HURON.—The Detroit Tribune of the 26th inst., says, that a vessel just arrived reports the lower part of Lake Huron full of ice as far up as Lexington.—The St. Clair River is blocked up at Port Huron.

ANOTHER VOLUNTEER.—The Constantine *Mercury*, St. Joseph County, Michigan, hitherto neutral, comes out with the flag flying for General Scott. The volunteers are coming in rapidly to the rendezvous.

☞ Nathaniel Hawthorne, one of the best American prose writers, has purchased a farm in Massachusetts, and taken up his residence thereon.

☞ The last number of the Westminster Review, one of the "great quarterlies," speaks of the "State of Baltimore," and says "each member of Congress represents 30,000 adult males!"

THE WALDENSES.—A London Correspondent of the New York *Times* speaking of the Waldenses says:

"The protestant Waldenses have celebrated with great eclat the anniversary of their emancipation proclaimed by the late Charles Albert.—They publish now an Italian Protestant paper called *Il Valdes*, and the principles of the Reformation are increasing very rapidly in the country. The Italian Protestants are erecting a large church in Turin. I have seen the drawing and I can say that we have not such a temple in our country. Dr. Berg, the Protestant Minister in Turin, will visit the United States to lecture on the Waldenses, and to obtain donations for the erection of other Protestant Churches in Piedmont. I hope that the good Minister will find a warm welcome in our country. His mission is noble and Christian, and as Americans we owe something to those Italians who gave us a country and a name.

THE MAYFLOWER.—A merchant of this city, who came up on the Atlantic, informs us that he saw the Mayflower, and found her lines all right, and no appearance about her to indicate that she has suffered any permanent injury. The glass work and cornices in her cabins are unbroken. She will be at our docks in complete trim, on the 15th of May.—*Det. Adv.*

City Matters.

HORTICULTURAL SOCIETY.—At the meeting of this Society yesterday afternoon, a constitution was adopted, and the following officers elected, to serve until the next annual meeting, to be held on the 1st of Saturday of March, 1852:

President—Hans Crocker.
Vice Pres'ts—Thos. Hyslop, Rufus King.
Cor. Sec'y—R. N. Messenger.
Rec. Sec'y—W. H. Watson.
Treasurer—David Ferguson.
Executive Com.—B. McVickar, Chas. Gifford, Francis Randall.

The first named officers are members of the Executive Committee *ex-officio*.

Several gentlemen paid their fees and became members, and the interest shown in the success of the Society was very gratifying. We cannot doubt that its establishment will result, not only in bringing out the undeveloped horticultural resources which we have now among our people, but greatly increasing them, to the pleasure of our citizens, and the benefit of the city.

The constitution prescribes liberal terms of admission to membership, and we beg leave to recommend all who wish the Society success to place a dollar in the hands of some one of the members, who will propose his name at the next regular meeting, for admission. If there any—and we hope there are many—liberal souls, who sympathize twenty dollars worth in the excellent objects of the Milwaukee Horticultural Society, they have an opportunity of gratifying themselves by becoming Life Members, and this will free him from the annual fee of one dollar.

The importance of lending a helping hand to the Society in its commencement, so that it may have a vigorous growth, will be readily perceived.

EXTENSIVE STOCK OF HARDWARE.—We invite the attention of city and country readers to the advertisement of HENRY J. NAZRO & Co., in this morning's paper. This is one of the most successful houses in our city, and their stock, for extent and variety, may safely challenge comparison with that of any Hardware Store in the West. We should say more, but Messrs. NAZRO & Co., are too well known in our City and State to need endorsement or eulogium.

ANOTHER JAIL BIRD CAUGHT.—CHRISTOPHER JUST, who escaped from Sheboygan Jail on the 26th ult., and for whose recovery the Sheriff of that County offered a reward of $25, was nabbed in this city yesterday by Deputy Sheriff PAGE and placed in confinement. Just was under sentence for larceny and will be taken back to Sheboygan to serve out his time.

BURGLARS ARRESTED.—Deputy Sheriff PAGE yesterday arrested two men, named Burns and Esterbrook, at a suspicious house in the 4th Ward, charged with breaking into Wells & Hill's Packing House and Emery's Kitchen, and stealing Pork, Hams and Shoulders. The stolen property was found in their possession. They were committed to jail to await a trial.

HARPER FOR MAY.—This excellent periodical is on hand, punctual to a day. It is full of choice reading; including additional chapters of Abbott's "Napoleon"; another number of "Bleak House," a continuation of the "Franconia" Stories, extracts from "Punch," Bulwer's "My Novel," and other literary luxuries. For sale at ARNOLD & WILSON'S, Wisconsin St.

AUCTION SALES TO-DAY.—WALL sells a lot of furniture this morning on the vacant lot opposite his store; always providing that it don't rain—a very proper proviso just now.

SHANNON & CONOVER sell a lot of books and paintings this evening, at their rooms.

ALFRED DOCKERY, }

GENERAL UTLEY.—WM. L. UTLEY, Member of Assembly from this county, has been appointed Adjutant General of the State of Wisconsin for the ensuing term. We are not aware of the precise duties of this office, but we know that the General is a very excellent shot, and can command a great many file of double-barrels, whether he can of muskets or not.

We do not know whether he is or is not a very dashing officer for a parade; but, he is certainly good in the field—we may say, indeed, he is a veteran in the field,—and, after every engagement his list of killed amongst the foe is great; and yet he is careful never to commit wholesale slaughter, but kills just the proper number; and, what is quite as important, never, except at the proper time.

We trust Sportsmen will look upon this appointment as an important and proper one; and our Eastern brethen of the Gun will remember, that Wisconsin is the first State to appoint a thorough sportsman as Adjutant General. We expect that all officers will be informed, that killing of game out of season is unlawful, ungentlemanly, and unofficer-like, and will be visited with his severest displeasure.

In all minor matters, of course, Gen. Utley will do his duty; and, in the unlawful use of fire arms he well, have no doubt, do more than the law requires, and teach those under him the military lesson of the proper use of fire arms, and the improper abuse of them.—*Racine Advocate.*

Death of Gen. Solomon Van Rensselaer.

It will pain the hearts of all our citizens to hear that that pure patriot, that brave and distinguished soldier, that eminent civilian and good citizen, Gen. Solomon Van Rensselaer, is dead. He closed his long, brilliant and eventful career at about 1 o'clock P. M., yesterday, at his residence on Cherry Hill, near this city, at the ripe old age of about 78 years. The manner of his death was sudden and unheralded. Through the past severe winter he had felt, much more than usual, the infirmities of a life that had far passed the point of threescore years and ten, and had remained more in the house than he was wont to. He arose yesterday morning in his usual health, and about 11 o'clock in the morning left the house temporarily. His absence was so long protracted as to occasion some apprehension on the part of his family, and his son-in-law, Dr. Elmendorf, going out to seek him, found him in, an out-house, alive, but insensible. He was borne in, and in a short time breathed his last, without recovering speech or consciousness. He was stricken with apoplexy.—*Albany Register* 14th instant.

"AM I DEAD?"—The clipper ship Flying Cloud, Capt Cressey, on the passage from Canton to New York, boarded an English ship, and received from her several American papers. These were an unexpected treat, and therefore, the more agreeable. Throwing himself into an easy position, along a settee, Captain Cressey was soon at home among the saying and doings of Yankee land. Mrs. Cressey was near him, and occasionally, as an interesting paragraph met his eye, he read it to her But hold on! as the sailors say. Something of more than usual interest has met his eye; he springs to his feet, holding the paper in his right hand, while with the left he rubs his eyes.

Mrs. Cressey was startled, and half rising, was about to ask the cause of his surprise, when, stamping his right foot, as a sailor only can demand—"Am I dead?"

Mrs. Cressey rose and retreat a step or two, but, following her up, he again demanded—"Am I dead?"

"I should think," said Mrs. Cressey, standing her ground, "that you were mad. Why do you ask me such a question?"

"There," said he, handing her the paper, "if I'm not dead, somebody has made a slight mistake. Read."

CAPT. CRESSEY OF THE SHIP FLYING CLOUD. It will be seen by the telegraph news in another column that this gallant sailor is no more. Two days after sailing from San Francisco, bound to China, he died, and the ship proceeded in charge of the mate. He was a native of Marblehead, and was about 46 years of age. For many years he commanded the ship Oneida, of New Bedford, in the China trade, and was distinguished for the uniform rapidity of his passages. In the Flying Cloud, he made the shortest passage on record to San Francisco, and eclipsed the finest and most costly merchant ship in the world. And yet, this crowning triumph of his life was attended with many disasters to his spars and sails; still he pressed on, disdaining to make a port short of his destination. In every scene of a sailor's life "with skill superior glowed his daring mind"—his dauntless soul rose with the storm and all its dangers shared." But now he rests from his toils, regardless of his triumphs. Peace to his manes!

Having read her husband's obituary, she returned the paper and said. "You are *not dead*; but if you doubt me, ask the sailors." This was a home thrust, for he generally keeps all on the move where he commands.

The announcement of his death was sent by telegraph from New Orleans, but, where it originated, his friends could not ascertain. It relieved him, however, of a law-suit. On the passage to San Francisco, he put one of his officers off duty for springing the quintmast; the officer returned to New York, intending to remain there to prosecure him upon his arrival; but hearing of his death the officer went to sea. So much for a blunder.—*Boston Atlas.*

THE BURNING OF THE BOSTON NATIONAL THEATRE.—The theatre destroyed by fire, in Boston at about 3 o'clock, A. M., on Sunday last, was one of the largest and best planned in the country. The stage was unrivalled for its size and capacity to present plays with superior effect. The theatre was built in 1836, and its cost was $30,000; cost of the entire establishment, including the land and all property connected with it, is estimated at about $70,000. A few months ago, it was sold to a Boston gentleman for $40,000.

The Transcript tells us that the fire is generally believed to be the work of an incendiary, as it originated near the back entrance below the stage where there had been no fire; neither hand any fireworks been employed during the performances of the evening; nor was anything liable to spontaneous combustion known to lie within the building.

The performance, on Wednesday evening, of the "School for Scandal," for third time, by Mrs. Sinclair and Mr. Vandenhoff, was witnessed by an audience of 2000 people. Mrs. Sinclair, we are happy to learn, lost nothing, having removed her elegant Lady Teazle dresses after the play. Mr. Vandenhoff only lost his dressing case. But the actors and actresses belonging to the theatre lost everything, in the way of wardrobe, they possessed: and the lessees must greatly suffer by the destruction of the theatre.

The present purchasers of the Market Street theatre came forward promptly, and offered "Old Bury" to the burnt out company, that they are going on again. Mrs. Sinclair appearing, on the evening of the day of the fire, as "Margaret Elmore," in "Love's Sacrifice."

Messrs. Wright, Fenno & Bird, lessees of the National Theatre, estimate their loss at about $15,000, on which there was no insurance. Their books, papers and money were preserved.—The building was insured for $10,000, as the following offices; Franklin, Mutual, Boston.—The theatre contained $4000 worth of music, 2000 volumes of prompt-books, and 300 original manuscripts, some very valuable—all destroyed.—*N. Y. Express*, 23d.

EMIGRATION HITHER.—We are daily noticing the arrival of emigrants from Ohio, Indiana, Kentucky, Tennessee and Missouri, particularly from the portions of these States subject to Intermittent and Bilious fevers and the Cholera. It would be an exception to find among them a family who was not well off, though most of them do bear the marks of climatic influences and a laborious life. They are seeking the North, and and attracted by the delightful healthfulness of the mining region, (which it may be proper to inform the reader is no insignificant tract of country, being in fact larger than the whole State of Delaware,) are taking the places of that portion of our population who have gone to the mines of California. This kind of emigration is rapidly filling up the country, and three years, the indications are, will give us a population, the majority of which will be new men, with new ideas, who will infuse a new life into the agriculture of the country.—*Galena Gazette*, 26th ult.

The Wheeling Bridge.

BALTIMORE, April 22.

The lower House of the Virginia Legislature has passed a resolution, requesting Congress to take such constitutional measures as will prevent the removal of the Wheeling Bridge, and instructs the Attorney General of the State to ask from the Supreme Court a stay of proceedings untill the an-wer can be had. A subsequent resolution says in the event of refusal of Congress and the Court, the State will not be bound to acquiesce in the removal of the Bridge.

WHIG CITY CONVENTION.—The Whig Convention, at its session last evening, agreed to support the nominee of the National Convention.

Washington, April 21.

Whigs of all shades of opinion and sentiment seem pleased with the result of last night's Congressional Caucus. It is a great mistake to suppose that any considerable number of Southern Whigs wished to hamper and trammel the Convention with platforms of outside manufacture—I cannot learn that more than a dozen members left the Caucus because it refused to pass Compromise resolutions. Mr. Marshall of Kentucky, took formal leave, bowing himself out with ceremony. Two or three others followed the impressive example, but the occurrence did not disturb the equanimity of the assemblage. After the few seceders had disappeared, the business which called the members together was speedily transacted. Cor. N. Y. Times.

☞ The Atlantic and Wisconsin arrived this morning from Buffalo with full loads. Report all clear. The Ruby came in from "all along shore" of St. Clair last night, having been ice-bound since last Tuesday. She reports the lower part of Lake Huron full of ice as far up as Lexington. The St Clair river is also blocked at Port Huron.—*Detroit Tribune.*

☞ We learn that it snowed a good part of yesterday on the Helderberg. A gentleman who rode in on Wednesday, informs us that he passed through snow drifts on portions of the Helderberg that were three feet in depth. Pretty well for the 21st of April!—*Albany Register,*

☞ The Washington Union strongly disapproves of Mr. Mangum's speech in favor of Gen. Scott. It thinks it would have been better for him to have supported somebody else, or at least to have taken different ground. Doubtless it would—for the Union and its "democratic" friends.—*Albany Journal.*

BOARD OF PUBLIC WORKS.—Messrs. Prame and Proudfit, of the new Board have arrived, but Mr. Richardson being unwell has not yet got along. The Board will not organize till he arrives.

Messrs. Prame and Proudfit left yesterday for Green Bay. They will be back here next week.—*Oshkosh Democrat.*

SUICIDE.—On Saturday, about noon, a German named John Ziller committed suicide by cutting his throat with a razor. He is aged 36 years, belongs to Milwaukee, and leaves a wife and two children. He was laboring under insanity at the time, having been for some time subject to fits of insanity.—*Racine Advocate.*

G. GRÆSSLE'S
PRESSED, FIRE-PROOF TILING.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire proof Tile invented by Mr Graessle having found them perfectly secure during snow storms, rains, wind and intense frosts I therefore take occasion to recommend said roof covering to every house builder inviting them to satisfy themselves by accurate inspection of the excellent quality of the same

ENNO MEYER,
Druggist, 374 W Water-st, 2nd ward

Milwaukee, Feb 3, 1852

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr Graessle

AUGUST KRUG,
Brewer, Chestnut st, 2nd ward

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr Graessle, have found them perfectly answering the purpose intended Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water proof covering, but above all for its durability The ridges and chimneys not only exclude the entering of snow or rain water, but, by their firm and precise joining of one into the other, they add to the stability of the whole covering

As well as to the whole as an absolutely moveable position and an intimate connection Besides this, Mr Graessle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable, and joining to the above another virtue, viz that of dispensing with repairs

The undersigned therefore consider themselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material

To G Graessle —I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire proof roof
